CCTV

About Camvex

Many security companies lay claim to providing a total security solution and being capable of providing one point of call for alarms, patrols, guards, monitoring, access control and CCTV.

They are required to spread their resources across all these different areas of security. Camvex is different as it is one of very few organisations that will not attempt anything but providing CCTV solutions.

Established in 1987, fully Australian owned and managed, Camvex Video Surveillance Systems has built a reputation as the leader in its field.

> **Why are we considered the leader in our field?**
> **Capability is why!**

For 24 years we have been developing our CCTV infrastructure to provide "**Total CCTV Solutions**." We are able to design, supply, rent, install, service and remotely administer your CCTV equipment.

TOTAL CCTV SOLUTIONS

- SYSTEM DESIGN
- PURCHASE
- RENTAL
- INSTALLATION
- TRAINING
- LEASING
- COMPLIANCE
- SERVICE
- REMOTE ACCESS
- POS INTERFACING

Our CCTV System Engineers can ensure you adopt the most cost-effective solution for your needs.
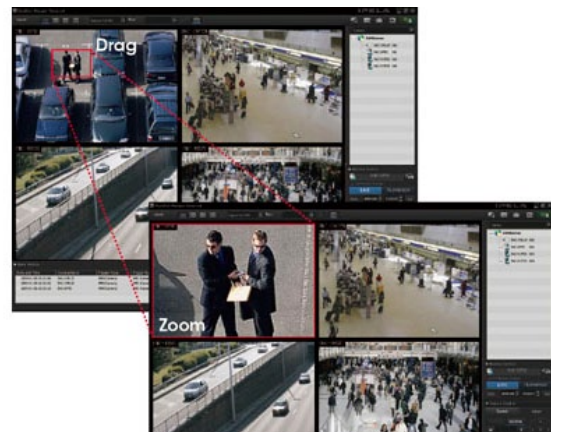

People provide solutions, not boxes of equipment.
We have the industry's most highly trained CCTV personnel including.

- ✓ System Engineers
- ✓ Installation Manager
- ✓ Service Manager
- ✓ Workshop Technicians
- ✓ Field Technicians
- ✓ Documentation Manager
- ✓ IP Video Integrator
- ✓ User interface Designer
- ✓ Site assessors
- ✓ Installers

CAMVEX SHOWROOM

Our CCTV showroom is not only the largest in Australia, but the most comprehensive facility for evaluating CCTV products and technology.

There are 56 CCTV cameras, up to 13 IP cameras, matrix switching equipment, POS interfacing and numerous digital video recorders.

It is possible to compare different models of CCTV cameras including analogue, 960H, HD-SDI, IP/Onvif with PAL to full HD resolution IP cameras objectively in a controlled environment including comparison of DVR / NVR and various Video Management Systems (VMS) software.

Two ADSL connections are installed to allow demonstration of remote camera access.

Camvex has installed more the 4,000 CCTV systems over the last 24 years.

The recommendations we have made on technology and our ability to support them is what sets us apart.
